FS-245 MOBILE SHEAR

- Innovative engineering with an optimized structure for long life and high strength to weight ratio
- Designed with maintenance in mind - large access panels are removable for component replacement

Massive pivot group dramatically improves performance and durability of the shear

Unmatched power at the tip

Upper and lower are milled from 6" high yield plate steel

All hydraulic circuits are duty cycle tested to typical operating pressures, flow, and temperatures prior to delivery

Machined fitment from lower jaw to stick body

Shear Specifications - Metric
