FS-35 MOBILE SHEAR

- Innovative engineering with an optimized structure for long life and high strength to weight ratio
- Designed with maintenance in mind - large access panels are removable for component replacement

Unmatched power
at the tip

Massive pivot group dramatically improves
performance and durability of the shear

Upper and lower are
milled from 6" high
yield plate steel

Machined fitment from
lower jaw to stick body

All hydraulic circuits are duty cycle
tested to typical operating pressures,
flow, and temperatures prior to delivery

Shear Specifications - Metric
